

Manufacturer: [LG Electronics U.S.A.](#)

Part Number: MSP-100

General

- Product Type Portable speakers
- Width 3.5 in
- Depth 0.8 in
- Height 1.8 in
- Weight [2.7 oz](#)
- Enclosure Color Gray

Speaker System

- Speaker Type Active
- Output Level (SPL) 98 dB
- Audio Amplifier Integrated
- Connectivity Technology Wired
- Controls Volume

Speaker System Details

- Speakers Included Right/left channel speaker - Wired
- Driver Details Right/left channel speaker : 1 x Full-range driver - 36 mm

Connections

- Connector Type 1 x Audio line-in (Sub-mini phone stereo 2.5 mm)

Miscellaneous

- Cables Included 1 x Audio cable
- Included Accessories Carrying pouch
- Remote Control None
- AV Furniture None

Power

- Power Device Battery charger
- Capacity 500 mAh
- Run Time (Up To) 10 hour(s)

Battery

- Type - Rechargeable - Lithium ion
- Required Qty 1
- Included Qty 1

Manufacturer Warranty

- Service & Support 1 year warranty
- Service & Support Details Limited warranty - 1 year

I've used this device during numerous outdoor activities and it works great. The battery holds a charge and the unit even has red and green built-in LEDs to indicate the state of charge of the battery.

To charge the unit simply plug in the supplied charger into a wall outlet and the other end of the charging-cable has a miniature USB connector on it. The unit outputs around two watts of audio which is more than enough to hear. In fact it will blow you out of a quiet room! The unit folds up into a small package and stores in a supplied pouch with all the audio cables.

I use the grey cable that has a 3.5mm stereo plug on both ends. I simply plug the unit into my KX1 then turn it on and listen to loud audio from my KX1. I paid \$20.00 for my unit at Dayton, but they sell online for around \$35 to \$40. This little gem is definitely a keeper.
